THE JUDICIAL POWER

Our governor will have it that the courts of the state have no just right to pass upon the constitutionality of the laws which the legislature has enacted. But the legislature may en-act laws grossly unconstitutional. In fact leg-leightnes often do this. What then? Do the people wish the fundamental law violated, overwn and trampled on, with no means of re-

Time, the governor would argue that there could be an appeal to the people, and that a leg islature might be chosen which would repeal the unconstitutional act. But would this be a safe thing to depend on? Let us put a case

Twenty-fire years ago ir Pennoyer held po-itical opinions which were extremely objection this to the great body of his follow citizens and he was in the habit of asserting those opinious in a manner that most persons regarded as danmanner that most persons regarded as dar-gerous to the peace, and treasonable to the country. In those days we had legislatures that would scarcely have bestated, but for constitu-tional restrictions to pass an act to attaint hum and others holding and advocating views like his own. In the fury of the hour, an intense pattism ablaze throughout the country, there is little disposition to tolerate those who held was into imposition to instruct mass who have populions in accord with the philosophy of se-cession and tebellion. Mr. Pennoyer asserts them now, only to be laughed at, but it was not so than, nor would it be so again in an equal americancy. Man who held those opinions were then classed, and rightly classed, with the public enemy. The legislature might have passed an act to attaint Mr. Pennoyer, and not improbably it would, but for the knowledge that there were tribunals that would hold it unconstitu-tional and prevent its enforcement. In such nonal and prevent in enforcement. It such as the propriety, and even the necessity, of having the power of which he would divest the coorts, securely lodged in them. The case we have supposed is an extreme one, indeed, but it well illustrates an extreme one, indeed, but it were indeptined into principle. The great body of the people of Oregon would have received with acclamation, twenty-five years ago, an act of the legislature that would have attainted Mr. Pennoyer and banished him from the state, but he was protected by the method and principle of constitu-

ribunals to give it authoritative interpretation Nor to the necessity confined to cases that may be conspicuous or extreme It exists also for all cases wherein legislation may affect proper-ty rights in unconstitutional ways. Legislation on such subjects often bears unequally and yet those who are oppressed may be few, and quite powerless the obtain redress through the legislation. Their wrongs would pass unnessed before their opportunity to appeal to the judicial power, and hierarchy secure nullifications of unconstitutional still oppressive need. The we need not contract the same sould be a produced of going tracks. Of course there is no second constitutional still oppressive needs of going tracks. on the questionto any considerable argument temptet to which the governor has alhis effort is but a vagary which will soon

It must be apparent that the inter-state commerce bill is largely an experiment. No one can say with certainty or even with tolerable assurance, what results it will produce. When a man of so rare judgment and so wide experi ence as Senator Sherman frankly admits that he cannot speak with any degree of confidence on the subject, it must be confessed that the enact-ment of the bill looks a good deal like a leap into the dark

are positive evils in railroad management, deepby affecting the welfare of the country, which
must be dealt with by legislation—and, since the legislation of a state can have no rifect heyond ils own borders, and since the railway system of the country has no reference to state lines, con grees must act. Inasmoch as the subject is so new, legislation must, at first, be mainly tema tive. Real knowledge of the right princip es and methods of the necessary egislation can be obtained only through experience and of the acquisition of the requisite stock of experience

This bill, as a first attempt to most the re-quirements of a great problem, will pret y cer-tainly be found in many particulars difficult and ineffective. In some particulars it may produce results positively injurious. But as rapidity as experience is acquired the defects may be remeexperience is acquired the defects may be remi-died. There is a session of congress every year. The people we believe, are carnest, and practi-cally unanimous, in demanding the enactment of this bill, and congress cannot justly disap-

ren, so many of them, grumbling about Gov.
Pennoyer's message, and criticising its eccentricities. One we have heard of, who says that the CLARKE & CO, agents.

levislature ought to adopt a resolution denouncing the message as "unconstitutional and revo-intionary". If amendment is in order Ta: Offi-cowian would move to add the words, "and vold." But the strange thing is that our brettren are surprised. The message is more ike

There is a significant passage about prohibition in the message of the new governor of Maine. Petitions have been sent to the legislature and to the governor urging the enactment of new laws imposing heavier penanties upon liquor sellers. But Gov Bodwell says that what is wanted to stop the traffic is "a s und public opinion to urge and uphold the enforcement of the law," and that "an increase of the censity would enhance, rather than diminish, the evils of indifference and hostility.

Long before the state of Oregon was here the United viates were here—here in this very ter-tiony, which was acquired by the United States through discovery, treaty and purchase, but Gov Pennoyer appears to think that the rights of the United States are but secondary and re-mole, and that the "sovereignty" of the state of Oregon is paramount. This same little mistake cost sundry states a deal of trouble some years

Simon's dodge upon the resolution relating to omerce bill was a dodge for Muchell. This is a bill that brings the corporation senator at Washington to a crucial test.

TO THE EDITOR OF THE OREGONIAN

Seriously the state is indebted to Gov Pennoyer for a fine literary effort and for an outspoken ox pression of his opinions. There is no 'straddic the ience business in nis message, it contains many excellent admonitions which our legislators will do well to beed and act upon. Taken for all in all "we ne'er shall look upon its like again." We may now hope that all the political foxes will be uncerthed and all the legislative steals unovered, and that well all see all the steal to the covered and all the legislative steals unovered and the destage of the steal to the literace of the interest of the message. The attempt to revive Calnon a set argreated and exploded views of state rights is simply amusing because harmieses.

OLD LAND DISPUTE REVIVED. The Catholic Mission at Vancouver Barracks

Ordered Off. This Brings up again the Question as to Whether the Church or the Government Owns the Reservation

On the 2 th of last month the war department directed the removal of the mission of St James from the Vancouver military reservation. Several weeks prior to this time Col. Thomas M Anderson the new colonel of the Fourteenth infantry and post commandant, asked permission of Gen. Ghon, department commander, to construct a road way and drains through the mission grounds. The request was referred to the department and grant ed and in order to allow (of Anderson to make the improvements monitoned, the order directing the removal of the mission was issued. Construction of the road through the mission grounds is now in progress. The fence surrounding the premises has been removed, and the in litary have assumed charge of the property, which the mission has had in peaceful possession since 1848, and which it has occupied for nearly fifty years. The property consists of about three acres of ground on which is situated the church built in 1832 to replace the church built in 1840 the episcopal residence the convent the Holy Angels college, and a few small dwelling. All are practically valuates, ew small dwellings. All are practically valueless, being old and decayed though the college and

WART A DEILGE.—The majority of people in this section probably have little fault to find with the amount or style of the rainfall for the past month. But down on the Cowenian people want a young deluge. There are millions of feet of logs in that stream waiting for a freshet to take them out. There have been no logs driven out of that stream for three years. One logger has a million feet sold, and is afraid be cannot get them out. If he does not, it will make a serious delict in his exchequar. An ordinary fixed does not cause the Cowennat or isses sufficiently to move out the logs. Wha' is needed is a regular rip-snorter of a rain, a sort of cloud burst. It is to be hoped that the log gers of the Cowenna may be accommodated, but let us pray that if e "shower" may be load.

THICK CHEARKEN BURNED TO DEATH—The old Bernett house, situated at the northwest corner of State and High streats, Salem, was burned at \$ 90 o'clock Friday morning, and three of the Chinese occupying it were burned to death. The building was owned by G W Gray, and was leased by Chinese, a large number of whom resided in it. The fire is supposed to have been caused by the breaking of a lamp. The total loss is about \$5000. The building was one of the old landmarks of Salem, a low, two storied structure, built shout 1850, and kept for many years as a hotel. Capt. Bennett, the original proprietor, was killed in the Indian war of 1855.

PIONESE MERCHANI DEAD -On Thursday J PHONEDS MERCHANI DEAD —On Thursday J MEDIZEE died at his residence, corner Eieventh and Yamhill streets. He had been in ill health-mome months, and his death is directly attributed to rheumatism. Mr Brazee came to this state more than thirty years ago, and accuminated a large amount of property, among which is the St. Charles hotel He was an enerprising business man during the pend of his health, and was one of the projectors of the Morison street bridge. He leaves a wife and several children. The fumeral will take place the afternoon.

An extra freight came in yesterday on the east
side. The west side is handling a quantity of grain,
some of which was intended for the Yaquina route,
furt the arvice that way is far below demands. some of which was inhended for the xaquan route, but the service that way is far below demands. The narrow gauge brings in consid rable. They offered the Yaquina route 400 tons casts, which could not be taken. At present the service by the narrow gauge times is criticised, it being stated that freight is hedly mixed on the beat. This will soon be remedied. The eastern section is shipping relative theorem.

#### MINING MATTERS.

Observations upon Mining and the Incidental News of the Week.

In the new Caur d Alene county there exist some of the finest and purest antimo y ores yet discovered. A number of locations have been made in the vicinity of the Mountain House which is on the stage road, about half way between TL mpson and Murray. Other deposits are found Th. mpson and Murray. Other deposits are found west of Wardner, and at Aingstou there is a mine of the same metal, which is owned and worked by the Promeer company. H. S. Buck, manager. Small firmaces for the reduction of the ore are ready to be set in operation at Kingston and Mountain House, but little metal has as yet been produced Some small test lots of ore have been shipped to Ban Francisco and New York, several tons semi from Mountain House to the latter market having netted it is said ter market having netted it is asid som above expenses. The ore is extremely pure

To the Editor of the Uneconian
Since my last letter from here the weather has
been somewhat stormy, and as a natural consequence has confined us indoors and, by having sorado. In this there is a detailed account of the products and wealth of that growing state. Now, when it is known that this state, in the past few years has become one of the heaviest producers of the precious metais, we may gain something by even glancing briefly at her resources in comparison with this part of the world. As far as natural advantages are concerned, Colorado has not a single one over idado except with regard to geographical location, below so much nearest rado. even glancing briefly at his resources in comparison with this part of the world. As far as natural advantages are concerned, Colorado has not a single one over Idado except with regard to geographical location, being so much nearer trade centers of the Northwest. With the numerous ruliways connecting nearly every newly discovered mining camp she has rapidly developed into a great and successful wealth producing state where but a lew years ago was only an unknown wilderness. As far as soil climate, water, grass and grand scenery are concerned, this fair land known as the Genn of the Mountains is the poer of any we will now make very brief extraots from some state of the mountains of the poer of any we will now make very brief extraots from some state of the normal parts of that state but because its mines are so nearly life the Big Camas belt of Idaho Gregory Guieb Col, was first discovered and worked for gold placers in 1839 but it was soon found that its placers were neither extensive nor rich and they began searching for quartz lodes. There were many veins found in various parts of the county but the main locality was an area of less than four miles long and one mile wide, and sountained gold, aliver, corrections. CORVAILIS Jan 13 1-87 TO THE I DITCE OF THE OREGONIAN TO THE I DITCH OF THE OREGONIAN
We ought all to be interested in the subject of ducation, which will be one of these under consideration further the kircharter. Let that be my apply ogy for troubling you with this letter.

If we are not interested we ought to be ashamed of ourselves for by allowing ourselves to be taxed we profess interest. Measuring our interest by our school tax we are far behind other states and we ought to be ashamed of ourselves for that. When easier medigrants come across to us as we arrainage in such shape that they will not have cause to regret for their children s sake that they cause to regret for their children s sake that they cause in their we must not be content with "as it was in

SHILLING NOTES

Application was made to the bureau of navigation for permission to obsuce the name of the steamble City of Paintka to I astern Oregon and steamship City of Palatka to 1 astern Oregon and the request granted. The han brancisco Bulletin made a few pretty comments upon a fire 1 cture presented at the mouth of the Columbia Recember 23 by the passing out of ten grain laden ressels and the remarks are going the rounds. Rath. It is vessels going out at the same time would indeed present a pretty picture but truth compels the statement that seven passed out that day. This number is a larg feel in themselves.

The damage to a part of the Besshud a sarge was caused by leaks in deck and about batches. It is also stated that one plate is defective or rivets holding it broken steamaint traveling is cheap these days. Charges between New 1 ink and San Francisco equal 33 per day cabit or Si in steerage. Tours in southern seas cost \$5 per day this covering all expenses. Trans-Aliantic passages are \$22 to \$100 rabit, \$28 to \$5 intermediate and about \$1 steer age. Thus \$4 to \$5 per day will pay for a norm of the passage arross the Aliantic. Between 1 ortland \$50 der Tannelsoo the rate is \$20 cabit and \$10 steerage, or about \$7 and \$3 per day
